Fully insulated single phase motors

Applications

For grinding and cutting, using grinding discs and cutting wheels 125 mm ø, surface finishing using elastic backing pad 125 mm ø and fibre discs, weld grinding with flap discs type 27 flat and type 29 convex, descaling with wire cup brushes 70 mm ø.

- Digital electronics ensures constant working speed
- Sidehandle is mountable in 3 different directions
- Exhaust air leaves the machine in a 45° angle
- Undervoltage protection. Unintentional activation following a voltage interruption, even with the machine on, is impossible
