

Mobile grinding, milling and polishing system

SUNmic 60

Applications

Grinding, polishing, brushing and deburring in tool making and mold making, aircraft construction, engine construction and reworking of 3D-printed objects.

- Continuous rotation speed regulation to a max. of 60 000 min⁻¹
- Rotation speed regulation through potentiometer
- Digital display of rotation speed (RPM)
- Connector for 2 BLDC motors and 1 AC motor
- Motor recognition
- Speedy memory button
- Clockwise and anti-clockwise rotation
- Connector for foot pedal

Technical data

Type	Supply cable	Voltage	max. Speed	Weight
		V	min ⁻¹	kg
SUNmic 60 230V	240V AUS	90 – 240V, 50 – 60Hz	60 000	2,400

Grinding, milling and polishing system

SUNmic 60 230V VDE	Order No.	111 275 01
--------------------	-----------	------------

Set consists of: Control unit, Micro Motor handpiece type SMH 60-HT XL, Motor cable 1,8 m, Dimensions (b x h x w): 135 x 235 x 200mm/

Possible combinations
